

BLACKSAND
GENÈVE

EXPOSITION OF THE ENTIRE COLLECTION IN CAROUGE

On December 5th, a hundred people have discovered the complete collection in our offices Blacksand Geneva Carouge. To this end, the workshop was transformed into an observation place for watch connoisseurs who have discovered the secrets of the Uniformity watch case.

These have discovered at the same time the first movement entirely home made "Blacksand Geneva 2002" housing in the model Stratographe in the collection Uniformity.

Uniformity Jewellery Watches and the feminine Continuity collection have captivated guests with charm. Just like Omar Danial, our boat driver Blacksand world champion 2012, who knew how to thrill our guests with his stories of racing in the United States.

Chef Philippe Chevrier, present for this occasion, had concocted a cocktail with strong taste sensation. The guests took at the same time the opportunity to enjoy one of the first South African Grand Cru.
